

Questions to CDS from the Web Development class:

- What are your main goals for the website?
- Who is your target market?
- What is the focus of the website?
- Do you have a mission statement?
- When are the events actually happening?
- What is the most “popular” part of the website?
- What are the non-negotiables on the website? (items / content you must keep on the navigation bar? please list in order of importance)
- Do you have any other social media accounts?
- Would you like to have a proper blog? If yes, what would the content of the blog be?
- What platform was the website made on? (WordPress?)
- How often do you update the website?
- Do you have access to metrics?
- How many users are on the mobile app? (we notice the mobile version of the website is inconsistent with the desktop)
- Would you want more customer feedback? Have you considered developing a survey for your customers?
- What is special about concurrent disorders, why is it only this one on the front page?
- Some pages have an unclear meaning(for example, Journal of gambling issues: metrics)
